

SIEMENS

Ingenuity for life

Enabling the digital twin

Submit your idea to win 1,000 € and a hackathon with Siemens Power and Gas in Germany!

Do you have an idea on how the digitalization of measurement and inspection technologies can enhance the manufacturing processes? Join the Global University Challenge to get the unique chance to work together with Siemens experts and gain insights of a global company.

- Start in September 2016
- Eight universities participate worldwide
- Teams of maximum three students
- On-site week hackathon in March 2017 in Germany
